Making a difference for 150 years

“We are the IET and we inspire, inform and influence the global engineering community to engineer a better world. As a diverse home across engineering and technology, we share knowledge that helps make better sense of the world in order to solve the challenges that matter. It’s why we are uniquely placed to champion engineering.”

IET Intelligence & Research

As a specialist publisher for the global engineering and technology community, we offer a wide range of engineering, science and technology content and research solutions to fit your library's needs. Keep advancing with our wide range of engineering, science and technology content.

Books and eBooks

- Provide researchers, academic staff and students with fresh perspectives and global developments in emerging engineering subject areas.

Journals

- Our current journal titles are now fully gold Open Access, allowing researchers and practitioners around the world immediate and free access to current IET Journals content.

Inspec

- Support every stage of the research workflow with Inspec and Inspec Analytics to maximise the impact of your team's research.

Books and eBooks

The IET offers a comprehensive and high-quality selection of eBook titles covering a range of subject areas and disciplines including:

- Computing
- Control, Robotics & Sensors
- Electromagnetic Waves
- Energy Engineering
- Healthcare Technologies
- Materials, Circuits & Devices
- Radar, Sonar & Navigation
- Security
- Telecommunications
- Transportation

UPCOMING WEBINAR

**How can IET engineering
and technology eBooks add
value to your library?**

Register today!
Tues. April 27 at 3pm ET

Journals

IET Journals span all areas of engineering and technology – covering the disciplines of electrical, electronics, computing, control, biomedical and communications technologies. Our journal content is indexed in all major databases to help your users discover relevant content.

Current journals now Open Access

The latest content from over 40 journals is accessible through a publishing partnership with Wiley on the IET Research hub page.

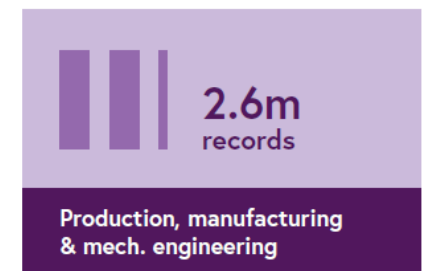

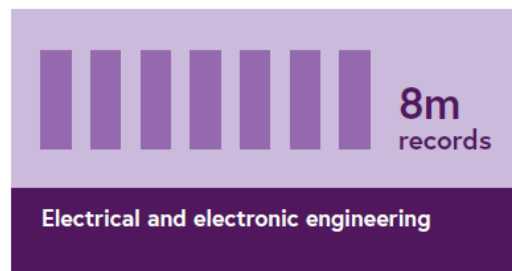

IET Journals Archive 1872-2012

With over 145,000 full-text articles, the Journals Archive provides exclusive, unlimited online access to the IET's extensive publishing history.

Inspec

Owing to the precision and accuracy of its indexing, **Inspec** is the authoritative resource for accessing scientific literature across engineering, physics and computer science. As the role of scholarly communications continues to evolve, we've combined the latest in semantic technology with Inspec's highly curated index to deliver **Inspec Analytics**, our dynamic research intelligence tool designed to assess research and guide business strategy.

- A world-renowned, high quality, specialist database of ***published scientific & engineering articles***
- We ***ingest, select, curate*** and ***classify*** to make them ***more discoverable by researchers***
- Over ***20 million indexed records*** since 1969, over ***12% of content is Open Access***
- Updated weekly for researchers to keep up to speed with developments in engineering, computing & physics
- Fully integrated with a number of vendor platforms
